

WEBINAR 2

GRANT WRITING WORKSHOP FOR HIGHER VALUE, MORE COMPLEX GRANTS – FEATURING INPUT OUTPUT MODELLING AND COST BENEFIT ANALYSIS TO SUPPORT YOUR CASE

BROUGHT TO YOU BY
AEC Group/Regional Development Australia
Sydney/ Economic Development Australia

DATE	Wednesday, 25 August 2021
TIME	1pm-3pm
WHERE	Zoom - Register via link below
REGISTER LINK	https://us02web.zoom.us/webinar/register/WN_Yium5cNaTfC-CMTp7oRq_oA

TOPIC OVERVIEW

This is the second of a 2-part online training series on grant application processes and grant writing principles with some 'tips and tricks'. Included is specific information on sourcing and preparing data based on the size and complexity of the grant. This training session will focus on Input Output Modelling and Cost Benefit Analysis.

Speakers include Martin Drydale, Technical Director (Local Government), AEC Group, who will increase participants' understanding of Federal and State government grant application processes and provide guidance on improved grant writing techniques. Kieron Lacey, Technical Director, Economics and Jordan Ramm, Economist and DataAU Manager, AEC Group, will provide instruction on Cost Benefit Analysis and Input Output Modelling with a brief overview of Social and Community data

OUR SPEAKER LINE-UP

RDA SYDNEY WELCOME

Therese O'Dwyer, Director of Regional Development/ Executive Officer RDA Sydney

Therese has over 20-years' experience in project scoping, management and delivery, policy analysis and design in the public and not-for profit sectors across a broad range of agendas including economic development, community capacity building and infrastructure funding. RDA Sydney is part of a national network of organisations that focus on building strong, confident, and vibrant regions. RDA Sydney's remit is to support, promote and advocate for the 13 RDA regions in NSW.

OUR PRESENTERS

Martin Drydale, Technical Director (Local Government), AEC Group

Martin is an experienced local government senior manager with experience in both the UK and Australia. Martin has successfully delivered major business transformation projects and initiatives and has overseen the delivery of major infrastructure projects. He has implemented Portfolio, Program and Project Management frameworks across a number of councils and has seen success in attracting Federal and State grant funding for many organisations across Australia.

Kieron Lacey, Technical Director - Economics, AEC Group

Kieron has extensive experience in socio-economic and industry research throughout Australia, with specialist skills in project and program impact assessment and analysis of regional economic structures. Kieron has significant experience in the identification, analysis, and assessment of economic and social impacts of major projects and programs across Australia using a range of tools, including Cost Benefit Analysis (CBA), Triple Bottom Line assessment, Input-Output analysis, and qualitative risk-based assessment frameworks. This includes considerable experience in identifying and valuing non-market goods and services, in particular for quantifying social and environmental impacts.

Jordan Ramm, Economist & DataAU Manager, AEC Group

Jordan is an economist and data visualisation expert with AEC, as well as the manager of AEC's online data visualisation platform - DataAU. Jordan has experience in regional economics, tourism, and economic and financial modelling, and has used his experience to develop a range of plans and strategies that deliver meaningful outcomes to local and regional organisations. Jordan has also supported the development and delivery of numerous grant applications in his time with AEC, particularly those that deliver economic outcomes to regional communities. His grant writing experience ranges from water-security infrastructure in regional New South Wales to legacy tourism events that cover the whole of Queensland.
